

## Transportation Guidelines School Readiness 2021-2022

Please see the following guidelines regarding the bus drop-offs for students in Pre-K through Grade 4.

In the event that there is no one visible when dropping off the child, the bus driver will return the child to school at the end of the bus run. This is done so as not to affect the length of the bus run. Although not recommended, it is possible to give permission to drop off students in Pre-K through Grade 4 when no one is visible. We would need written documentation of permission. We also would need written permission for a student in Pre-K through Grade 4 to get off the bus with a 5<sup>th</sup> or 6<sup>th</sup> grade sibling. Written documentation can also be provided to the school if you would prefer your fifth or sixth grade student not to be dropped off without someone visible.

\_\_\_\_\_ I have read the Transportation Guidelines (Please initial.)

I would like to have the following documentation on file:

---
