## Do you have concerns about your child's learning and/or development?

In accordance with federal regulations, state statutes, and local board of education policy, Hampton Elementary assumes the responsibility for the location, identification and referral of all children requiring special education and/or related services from birth through grade 6, including students who are in private schools, in religiously affiliated schools, migrant children, homeless children, and those who are in need of special education even though they are advancing from grade to grade.

**School Age Children PK-6:** If your child attends HES, please discuss your concerns with your child's teacher. If your child does not attend HES: Contact us to discuss your concerns. We can conduct screenings and/or make referrals to consider any evaluations that may be necessary.

**School Age Children Grade 7 and over:** Contact Parish Hill High School, (860) 455-9584, Director Jocelyn Morse ([jmorse@parishhill.org](mailto:jmorse@parishhill.org))

### **If your child is under age three:**

The school district works in collaboration with the statewide **Birth to Three system** to ensure the identification of children ages birth to three with disabilities. Parents and referring parties should call **1-800-505-7000 (Infoline)** to initiate entry into this system.

Children can be referred to the Birth to Three system by a variety of sources, including parents, hospitals, pediatricians, nursing services, social services and school system staff. Children identified as being in need of services are referred to community agencies, and programs and services are provided in accordance with the eligibility standards and service options currently available through the Birth to Three system. The school district maintains a record of the children with disabilities for whom special education and related services will likely be required upon entry into school at age 3.

For further information, contact Principal Mrs. Smith or Special Education Director Mrs. Chretien via email (above) or 860-455-9409.
